Prof. P. M. Morse
R. 6-109

Dear Professor Morse:

I am enclosing a copy of a letter which I sent to Wright Field in connection with our contract. In addition, you will find a copy of the Quarterly Progress Report for the period ending February 28, 1953.

There is also enclosed a copy of Report R-52, which summarizes one of the major problems which we have been doing on the Rockefeller Differential Analyzer -- techniques for solving pursuit problems.

There are a number of technical reports in various stages of completion, and I shall send you copies of these when they are ready.

Sincerely yours,

Frank
